

Do you need a new office location  
to help with your company's new  
social distancing objectives?

## CORK AIRPORT HOTEL

Our team at the Cork Airport Hotel has the solution for you to be able to prioritize your teams and build confidence for the new ways of working.

Moving to a new office space can be as involved a process as moving to a new home. You've got big, bulky furniture, difficult to pack electronics, and multiple rooms worth of knick-knacks to get packed up. We now know from Government that "Things can't go back to the way they were" Have you thought what your shared office space will look like when your teams return to work?

Our meeting/office space facility is perfect for you and your colleagues to comply with the new regulations of social distancing in the work place or the segregation of various teams or departments.

**We have 5 meeting / office space options for you catering from a office of 4 employees up to 50 employees allowing for 2 metres social distancing.**
